Take part!

Pivô has just celebrated its tenth anniversary. Throughout this time, we have created conditions and alternative models to foster critical thinking and contemporary artistic production, always considering their complexity. In this history, we have had over 70 exhibitions, over 100 public programs, and the collaboration of over 600 artists. In 2023, we took another step and inaugurated Pivô Salvador, seeking to create a meeting point for cultural agents and a significant stage for cultural debates.

Pivô has played an essential role in training young Brazilian and international artists through the Pivô Pesquisa program and by widely disseminating commissioned works and artistic research within the institution's Exhibition Program and Public Programs. Our structure is based on a constant commitment to the creative community, and we work tirelessly to ensure that the country's cultural infrastructure becomes ever more potent and keeps pace with our times. We believe that by continuing to work as a network, we will build an increasingly inclusive arts and culture environment with a commitment to quality programming that is always free of charge.

This auction event makes possible our commitment to keeping the Pivô space open to everyone and with quality programming, and to increasingly supporting the work of artists from different backgrounds and generations.

As in the last edition, in addition to supporting Pivô, artists were also able to choose to receive 50% of the sale price of their work, sharing with us the fundamental support of this collective articulation and recognizing the importance of mutual support in times like these.

We continue side by side in this collective effort to keep this important meeting point and support for the local artistic community active. Supporting Pivô also ensures its role as a catalyst for contemporary Brazilian artistic production in all its complexity.
